

Damper tape Energofloor®

Description

	<p>Damper tape Energofloor® is intended for the compensation of thermal expansion of a cement underlayment in floor heating systems. A polyethylene film serves for the prevention of liquid cement solution flowing under the lower edge of the tape.</p>		Article
	Thickness:	10 mm	
	Width:	0,1 m	EFRL1010011DM
		0,15 m	EFRL1015011DM
	Length:	11 m	
Note:	<p>- if the area of the concrete underlayment is less than 10 m², a damper tape shall be installed along the perimeter; - if the area of the concrete underlayment is more than 10 m², it is recommended to provide for the compensation joint devices.</p>		

Packaging

Packed into cartons with dimensions of 1020 x 395 x 395 mm.
