

Tubes Energocell® HT 2m

Description

Energocell® HT insulation tubes made from the flexible elastomeric foam with the closed cellular structure are intended for isolation of thermal points and networks, industrial technological, and also the solar systems. Use of thermal insulation of Energocell® HT allows to reduce thermal losses, to support technological parameters of work of the equipment and plants, and also to keep carrier temperature during the transporting and storage that is especially important in such industries as oil, food, pharmaceutical. Application of Energocell® HT provides safe temperature on a thermal insulation surface. The material is ecologically safe, chlorofluorohydrocarbons and PVC free.

High maximum service temperature (to +150 °C without restriction on influence time).

Thanks to high elasticity the material is convenient in installation.

Specifications

Specifications

Specification	Feature
Maximum service temperature, °C	+150
Thermal Conductivity, λ_{40} , Вт/(м·°C)	0,042
Reaction to fire	G1
Ozone resistance	Excellent
UV Resistance	Good

Accessories

Cleaner Energoflex®

Energoflex® cleaner is intended for the cleaning and degreasing of insulated surfaces and tools from Energoflex® Extra and Energocell® HT adhesive traces, as well as for its dilution to the required viscosity.

Article

Use	Approximate consumption
Insulation of pipelines	0,02 L per 10 m of a pipeline
Insulation of flat surfaces, tanks and devices	0.057 L per 10 m ² of the insulated surface
Insulation of fittings and accessories	0,096 L per 10 pcs. of fittings and accessories
Package:	1 L metal cans
Storage temperature:	No more, than 40°C

EFXCLEAN1

Montage mitre box

Montage mitre box - a device from shock-resistant plastic for shape cutting of Energoflex® tubes with outer diameter up to 89 mm.

Article

EFXMBOX

Montage knife

A montage knife with a specific sharpening is intended for the insulation cutting. The knife has a special form and dimensions allowing to simplify the work of a professional fitter as much as possible.

Contact adhesive Energocell® HT

Contact adhesive Energocell® HT is used for joining insulation junctions.

Article

Volume

Approximate consumption of 1L of contact adhesive:

Pipes 9 mm thick

240-300 linear m

Pipes 13 mm thick

160-200 linear m

Pipes 19 mm thick

110-140 linear m

Pipes 25 mm thick

70-90 linear m

Cheets (rolls)

~5m²

Package:

2,6 L metal cans

Storage temperature:

From + 10 to + 40°C

Use temperature:

From + 10 to + 40°C

ECLADH2/6HT

Self-adhesive tape Energocell® HT

Self-adhesive tape Energocell® HT from flexible elastomeric foam (EPDM) possesses a low coefficient of heat conductivity ($\lambda_{40}=0,042$ Вт/(м·°С) and is intended for the insulation of fittings, accessories and hard-to-reach sections of pipelines in heating systems, as well as for the sealing of different joints.
