

Adhesion of an adhesive layer to the metal surface, g/sm	Reaction to fire
≥600	G1

Flexible covering material Energopack® TK is intended for the protection of insulation against mechanical damages, atmospheric actions and ultra-violet radiation.

The use of self-adhesive sheets (rolls) Energopack® TK SK can significantly reduce installation time. The protective material is made on the basis of durable glass fabric, laminated with aluminum foil of two thicknesses:

- 7 mcm - for use inside buildings and structures;
- 35 mcm - for outdoor use.

The material has high mechanical resistance and significantly prolongs the service life of the insulation structure.

Sheets (rolls) being 1 meter in width

Self-adhesive sheets (rolls) being 1 meter in width

Sheets (rolls) Energopack® TK, laminated with 7 mcm aluminium foil

Standard size	Article	Width, m	Length, m	Quantity per roll, m²	Price without VAT, RUR/m²	Price without VAT, RUR/roll
Sheet (roll) Energopack® TK 1000-25	EPKR125TK	1	25	25	382,42	9560,50
Self-adhesive sheet (roll) Energopack® TK SK 1000-25	EPKR125TKSK	1	25	25	634,69	15867,25
Self-adhesive tape Energopack® TK SK 50-25	EPKL5025TKSK	0,05	25	1,25	675,46	844,33

Sheets (rolls) Energopack® TK, laminated with 35 mcm aluminium foil

Standard size	Article	Width, m	Length, m	Quantity per roll, m²	Price without VAT, RUR/m²	Price without VAT, RUR/roll
Sheet (roll) Energopack® TK 1000-25/35	EPKR125TK35	1	25	25	558,98	13974,50
Self-adhesive sheet (roll) Energopack® TK SK 1000-25/35	EPKR125TKSK35	1	25	25	848,70	21217,50
Self-adhesive tape Energopack® TK SK 50-25/35	EPKL5025TKSK35	0,05	25	1,25	905,51	1131,89

Sheets (rolls) Energopack® TK packed on 3 pieces in cartons with dimensions of 1006 x 366 x 131 mm, package volume 0,048 m³

Sheets (rolls) Energopack® TK SK packed on 3 pieces in cartons with dimensions of 1006 x 396 x 136 mm, package volume 0,054 m³

Self-adhesive tape Energopack® TK SK 50mm x 25m packed on 18 pieces in cartons with dimensions of 396 x 396 x 106 mm, package volume 0,017 m³

Accessories

Item	Article	Unit of measurement	Price without VAT, RUR
Aluminum self-adhesive tape Energopro® 50mm x 50m, C	EPRL05050ALSKC	roll	826,24
Aluminum self-adhesive tape Energopro® 100mm x 50m, C	EPRL10050ALSKC	roll	1555,40

Recommendations for the material use in the open air.

Field welds and field joints are necessary to be:

- placed whenever possible in such a way that to prevent moisture flowing into the construction;
- glued by Energopro® aluminum tape and additionally processed with a silicone joint sealant resistant to the impact of ultraviolet radiation.
