

Insulation for heating, water supply, air conditioning and refrigeration systems

|                                    |                 |                      |
|------------------------------------|-----------------|----------------------|
| <b>Operating temperature range</b> | <b>μ-factor</b> | <b>λ<sub>0</sub></b> |
| from – 80 to + 105 °C              | ≥7 000          | ≤0,036 W/(m·°C)      |

- High plasticity
- Mechanical stability
- Wide temperature range
- Attractive exterior

Sheets (rolls) made of foamed polyolefin plastomer, black color

| Standard size | Article   | Thickness, mm | Width, m | Length, m | Quantity per roll, m <sup>2</sup> | Price without VAT, RUB/m <sup>2</sup> |
